Thursday, February 2, 2017 12:30 PM

***Orchard Artworks at the Historic Powell House***

**Orchard Artworks** is a showplace for fine art and contemporary craft art created by artists in the tri-county area. They feature monthly member shows and partner shows with guest artist groups. Currently there are about 25 artists working in the gallery. Their pieces include paintings of all media; photography; book and paper arts; fine wearables and purses and so very much more. Orchard Artworks members will show a video of the history of the historic Powell House (circa Revolutionary War) and its reinvention into the fully artist-run cooperative Orchard Artworks that has been operating for 16 years. The Artworks also hosts workshops and is a place for small art parties. The members will show the range of art that is available at the gallery – perhaps for your Valentine’s Day shopping!
